What's UNIQUE about our program?

Holistic approach – Christian teachers focus on the needs of the whole-child, their social, emotional, physical, intellectual and spiritual growth and development.

Students contributions are valued and respected – Playtime and self-directed activities are important learning exercises, as are kid writing and sharing stories.

Hands-on learning – Math manipulatives, food projects, and outdoor explorations are all a part of the learning adventure!

Music and Art – Integrated into the core curriculum, music and art become a language of expression as students are at an early stage of language development.

Peacemaking Skills for Little Kids Curriculum – Students practice listening to one another, using caring language in conflict and daily routines, expressing empathy and taking responsibility for actions and words.

Biblical integration – Bible stories and themes are woven into all aspects of daily routine and curriculum.

Community building – Mealtimes, circle times and playtimes provide opportunities to learn social skills.

Parent involvement – Parents are a welcome presence in the classroom, helping with daily routines, reading stories, helping with lunch or recess.
